Hardware Installation

Note:

Follow the general instructions for installation of the card. If necessary, read the manual of your computer, or ask a specialist for help.

1. Turn off your PC, and unplug the power cord.
2. Open the housing.
3. Remove the slot holder from the available PCI Express slot.
4. Insert the card straight and carefully into the free PCI Express slot, until it is well seated.
5. Use a screw to attach the card to the housing.
6. Reattach the housing, and connect the power cord to the AC adapter.
7. Switch on your computer.

Driver Installation

1. After installation of the device, and after start of Windows the Hardware wizard appears.
2. Put the driver CD in the CD ROM drive.
3. Choose the option "Install software from a list or from another source" and click on "next".
4. At the point "Search also the following sources", click "browse" and choose the path: "CD-ROM\JMicron\JMB360_363\Win 2K_XP\X32" and click on "next".
5. The driver will be found and installed. Click on "Finish".
6. Restart your PC.
7. After restart you can start using the device immediately.
