

Delock Converter SCART / HDMI to HDMI with Scaler

Description

The Delock A/V converter converts an analogue SCART video and audio signal to a digital HDMI signal. Thereby e.g. a VCR or game console can be connected to an HDMI monitor or Full HD TV. In addition, an HDMI input is present, so that the converter can be used as a switch. Both inputs can be scaled via the integrated video processor to an HDMI output signal of 720p or 1080p with 50 or 60 Hz. The audio signal is simultaneously available at the HDMI output, as a digital S/PDIF signal and as analogue signal at the stereo jack.
