

Delock USB Type-A Fingerprint Scanner for Windows 10 Hello

Description

This compact USB fingerprint scanner by Delock is the ideal solution for all those who do not want to remember any passwords. It allows easy logon via fingerprint to the systems with Windows 10 Hello. Thus entering a password is not required anymore. A fingerprint-ID can be set for up to 10 users. Furthermore data files can be encrypted, protecting them against access by unauthorized persons. It can be used also for log in on many websites. Scanning the fingerprint takes only 0.15 seconds, due to the 360° touch field – much faster than pre-installed fingerprint scanners. The scanner also recognizes through the pulse, if a person touches the scanner and ensures an additional protection against unauthorized access. The installation is quick and easy due to the integrated Windows 10 driver.

Item no. 62963

EAN: 4043619629633

Country of origin: Taiwan,
Republic of China

Package: Retail Box

Note

Encryption and decryption of login data is only supported for the following websites:
