

Delock Fiber Optical Cable with metal armouring LC Duplex to LC Duplex Multi-mode OM4 2 m

Description

This fiber optical cable by Delock can be used to connect different networking devices, e.g. a switch to a media converter.

With metal armouring

The robust fiber optical cables offer increased protection against damage and outer influences such as moisture, dust or damaging rodents. Despite the metal sheath, the cables remain bendable and flexible. The fiber optical cables are also characterised by their high tensile strength.
